About me

I am a passionate web development student eager to learn and grow, seeking a developer position where I can collaborate with a dynamic team and enhance my skills .

Skills

- Programming Languages: Java
- Databases: MySQL
- Web Development: HTML, CSS, JavaScript
- Core CS Concepts: Data Structures & Algorithms (DSA), Computer Networks, DBMS, OOPS
- Tools: Microsoft Word, Excel, PowerPoint

Additional Information

- Technical Skills: Project Management, Frontend Development
- Soft Skills: Time Management, Teamwork, Communication, Leadership

Interests

Projects

Med Care

- Developed a web-based hospital management system using HTML, CSS, and JavaScript, enabling patient record management and improving user interaction with an intuitive interface.

Number Guessing Game

- Built an interactive console-based game in Java where users guess a randomly generated number, enhancing logic building and programming skills.

Amazon Clone (Frontend)

- Developed a responsive e-commerce website clone using HTML and CSS, replicating Amazon's homepage layout and enhancing frontend design skills.

Tic-Tac-Toe Game

- Designed and implemented an interactive Tic-Tac-Toe game using HTML, CSS, and JavaScript, featuring dynamic gameplay and real-time win detection.
